### Background

Registered voters approved or extended measures to charge sales/use tax rates for certain jurisdictions beginning April 1, 2019. The sales and use tax rate varies throughout the state of California. The sales/use tax rate is higher than the current state rate of 7.25 percent in areas where there are voter-approved special district (county, city, or both) taxes. The state, county, and/or city taxes are combined to determine the total sales/use tax rate due.

Under an Interagency Agreement Contract, the Department of Motor Vehicles (DMV) acts as an agent for CDTFA to collect sales or use tax when a vehicle or undocumented vessel is sold or transferred from someone other than a licensed California dealer, manufacturer, or dismantler, unless the transaction is specifically exempted from payment of the sales or use tax. DMV assesses tax due based on the state, county, city and zip code of the registered owner’s residence.
